

# DMYTRO REVA

## FULL-STACK DEVELOPER

### PROFILE

I am a 24-year-old Full Stack Developer with 1 year and 9 months of experience in web and desktop application development. I am proficient in technologies such as Java, Spring, Angular, and databases such as MySQL and PostgreSQL, specializing in artificial intelligence integration using models like Azure, Claude, Gemini, and Llama. My focus is on creating scalable and optimized solutions, working in agile teams, and ensuring high standards of quality and performance.
